Subject: Submission of 2017 San Francisco Public Utilities Commission - Southwest Ocean Outfall Regional Monitoring Program Summary Report

Dear Mr. Stoker, Mr. Torres and Mr. Wolfe,

Attached to this email is the 2017 Summary Data Report required by NDPDES Permit #CA0037681 for the City and County of San Francisco Public Utilities Commission's Southwest Ocean Outfall Regional Monitoring Program (SWOO RMP).

In addition to the 2017 Summary Data Report, a 15-year analysis of seven (reef effect) offshore sampling stations within the SWOO RMP area is also attached. This report provides the analysis supporting the decision to discontinue sampling of the seven benthic monitoring stations within the SWOO RMP area. For more information regarding the seven non-permit stations, please review the Monitoring Changes section of the SFPUC 2016 Summary Data Report submitted last year.

If you require any additional information regarding either of these reports, prefer hardcopies, or would like to comment on the reports, please do not hesitate to contact me.

Sincerely,

Ross
